EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS

Claim 10, line 1, the word -- the -- has been inserted after the word "wherein".

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims **1-5, 8-10 and 12-14** are allowable define over the prior art of record because the prior art does not teach or suggest a method of forming a solid conductive rod, comprising the steps of providing, forming, conducting, forming, conducting, removing and performing as presently claimed, esp., the step of performing a planarizing process on the first conductive layer to remove a protruding portion of the filled conductive material.

The prior art does not contain any language that teaches or suggests the above. In *Rose et al.*, the material **41** covers the conductive layer **29** but the mask **39** is removed to expose the dielectric layer **23** (Fig. 1G). The process of *Rose et al.* results in the T-shaped post **41** with a portion over the conductive layer **29**. *Rose et al.* do not disclose the planarizing process to remove the protruding portion. Therefore, a person skilled in the art would not have been motivated to adopt the above conditions, and a prima facie case of obviousness cannot be established.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
